Turtle Creek Watershed Association

We Are Connected:

The Turtle Creek watershed covers 147 square miles over two counties and includes all or parts of thirty-three communities. Rain and snowfall know no political boundaries, so we are all part of a single system.

What happens in one part of the watershed impacts people in other parts. While each community must address its own needs, considering the regional contributions of its actions is also critical to good governance.

Location:

Garden City Hall

(not your typical fire station...)

600 Garden City Drive
Monroeville, PA 15146
